

A woman with blonde hair is sitting on a bed, smiling and looking towards the left. She is wearing a white halter-neck crop top and white high-waisted briefs. A white shirt is draped over her lap. The bed is covered with a thick, grey, chunky-knit blanket. In the background, there is a window with a radiator below it and a green wall.

AN INTERNATIONAL PLAYER ROOTED IN THE SWEDISH TEXTILE TRADITION

Along the beautiful valley where the Häggån river winds its way, much of Sweden's textile heritage has its roots. For more than 150 years, the Sjuhärad region has been the heart of the Swedish textile industry. Here, knowledge and craftsmanship have been passed down through generations, and the region has played a vital role in shaping the everyday textiles of the Swedish welfare state – from underwear and socks to curtains and rugs.

It is here, among rolling grain fields and lush forests, that you'll find Wiges – a Swedish textile company with over 70 years of experience in developing comfortable, functional everyday wear. Founded in Gothenburg in the early 1950s, Wiges has long since established its home in a former textile mill in Kinna. The knitting machines may be gone, but the knowledge remains.

Since 2025, Wiges has been part of United Brands Group – a group of companies specializing in socks and underwear. Within this community, we are one of the largest players in Europe, with over 600 employees. A strong team that manages the entire chain, from yarn to store.

Welcome to Wiges – comfortable everyday wear made for ordinary people, by ordinary people.

We believe in making
everyday life more
comfortable
and better for everyone
through sustainable,
comfortable garments
designed to be worn
close to the skin.
Every day.

**80% OF A PRODUCT'S
ENVIRONMENTAL IMPACT IS
DETERMINED AT THE DESIGN STAGE.**

Design is not just about surface – it's about function, durability, and quality.
Design is a crucial factor in how our lives will be shaped in the future.

Colour, form, and fit are the foundation – but truly good design goes deeper than that.
Good garments don't have to be expensive – just thoughtfully made. When time and care
are put into the right materials, fit, and function, the result is something that lasts longer,
is worn more often, and feels better – for both the wearer and the environment.

For us, every garment begins with care. We carefully select materials, colours, and patterns.
We actively work to minimise waste during cutting and reduce emissions in production
and we only collaborate with suppliers who meet our high standards for quality, environ-
mental responsibility, and working conditions.

Our ambition is to create garments that make everyday life more comfortable for ordinary
people – and that help move the future in the right direction.
That's why we always think before we act – in every seam, every fibre, and every decision

**AGAIN, AGAIN, AGAIN, AGAIN, AGAIN,
AGAIN, AGAIN, AGAIN, AGAIN, AGAIN,
AND AGAIN. GOOD CLOTHES SHOULD
WITHSTAND BEING WORN AND WASHED.
OVER AND OVER AGAIN.
THAT'S WHAT REAL SUSTAINABILITY MEANS.**

All clothing affects the environment. The most sustainable option would, of course, be not to produce anything at all. But socks and underwear are everyday essentials that everyone needs – every day. That's why we believe the responsibility lies in how they are produced. Our mission is to do it as thoughtfully as possible.

Our goal is clear: to offer truly good everyday basics that are worn often and last long. Garments that withstand wash after wash, feel comfortable to wear, and are good for both people and the planet.

We want everyone to have access to good clothing worn closest to the body – without it costing more than necessary. That's why we do everything we can to both minimize environmental impact and keep costs down at every step, from material selection and production to distribution and packaging.

That's what we call a sustainable approach.

Want to know more about how we work with the environment and responsibility?

IT'S NOT JUST PANDAS WHO LOVE BAMBOO.

Bamboo is the perfect material to wear closest to the skin.

Our Life Wear® Bamboo is grown entirely organically, without artificial fertilisers or pesticides. It is produced in a closed-loop system where water and chemicals are reused.

Thanks to bamboo's natural properties, your garments stay fresh for longer. The bamboo fibre is smooth and round, making it exceptionally soft against the skin – especially for those with sensitive skin.

Bamboo also offers excellent moisture-wicking performance, creates a naturally cool feeling against the skin, and is naturally anti-static.

Do as we do – and as the pandas do.
Love bamboo.

THE DOCTOR RECOMMENDS.

DEVELOPED IN COLLABORATION WITH MEDICAL EXPERTISE.

Our range of medically focused socks has long been used by individuals with specific needs. Thanks to their health-promoting properties, they can provide increased comfort for those with sensitive skin, prone to chafing, sensitive to cold, or with poor blood circulation.

The materials are of high quality, and the socks are CE-marked where an approved EU standard exists. The products are manufactured in factories certified with OEKO-TEX® Standard 100, meaning they are tested and free from harmful chemicals.

MORE THAN SUPPORT SOCKS.

THIS IS A MEDICAL DEVICE
WITH UNIQUE PROPERTIES.

Many people suffer from swollen feet and legs – help them find the right solution
Swollen legs and feet are a common problem with several causes. It can be pregnancy, sedentary office work, varicose veins or high blood pressure. Long car and plane trips, hormonal changes or underlying heart, liver or kidney problems can also contribute. Here, compression stockings developed according to medical standards can make a big difference in everyday life.

Our compression stockings are developed in accordance with Swedish Standard SS 872400:2012, which specifies the requirements and test methods for the manufacture of medical compression stockings.

Abrasion tests are performed at RISE IVF in Mölndal according to:

SS-EN 13770:2002 and washing tests according to SS-EN ISO 6330:2012.

The stockings are tested for allergies, irritation and sensitization according to

ISO 10993-5:2009 and

ISO 10993-10:2010.

All our compression stockings are tested according to the RAL-GZG standard for the correct pressure.

The toe seam is of the lin-toe type for maximum comfort and has polyamide reinforcement in the sole, toe and heel for better wear resistance.

Three graduated compression zones are built according to the following model.

Full compression in zone 3 closest to the ankle, with decreasing pressure in zone 2 over the calf and a soft step into zone 1.

54085 COMPRESSION SOCK WIDE CALF 18-22 MMHG

QUAL: 74% cotton, 23% polyamide, 3% Lycra.
COL: Black.
STYLE: Large calf-widht. Reindforced toe, heal and extra thin toeseam.

SIZES: 34/36-40/42.
MIN. ORDER: 6 pairs per size.

LOOSE CUFF SOCKS.

FOR BETTER CIRCULATION AND A MORE COMFORTABLE FEEL.

Our socks with a loose cuff are designed for people with reduced blood circulation. A traditional tight cuff can restrict blood flow and cause discomfort. The loose cuff instead provides an even, comfortable feel around the leg and allows blood to circulate freely.

The socks are available in several designs – with or without ribbing, and with a cotton piqué or wool-blend leg. Thanks to their ergonomic fit, they sit comfortably around the foot and stay in place even during movement.

A popular choice for people with special needs, as well as for those simply looking for a soft and comfortable everyday sock without a tight elastic edge.

5302 SOCK SOFT COMFORT KNIT CUFF

QUAL: 75% cotton, 20% polyamide, 5% spandex.
COL: Black, navy, greymelange.

DIABETIC SOCKS.

WHEN YOU NEED TO TAKE EXTRA CARE OF YOUR FEET.

Diabetes is a collective term for conditions that cause elevated blood sugar levels. The most common types are type 1 and type 2, but there are also other forms, such as gestational diabetes.

People with diabetes often experience three common issues: reduced blood circulation, sensitive skin that is prone to chafing, and cold feet. The socks in this range are designed to help counteract these problems. That’s why they are suitable not only for people with diabetes, but also for anyone who wants an extra soft and comfortable sock.

Our diabetic socks are developed in collaboration with medical professionals and manufactured in accordance with OEKO-TEX® Standard 100 – meaning they are free from harmful chemicals.

No elastic in the leg end – for better blood circulation.

Extra stretch in the leg – easy to put on.

No toe seam on the inside – gentle on toes and prevents chafing.

Very soft and durable terry sole – retains warmth and prevents chafing.

5262 DIABETIC SOCK ROLL-TOP

QUAL: 80% bamboo viscose, 17% polyamide, 3% elastane.
COL: Black and black-striped.

IT'S EASY TO SHOP AT WIGES

The hardest part is probably choosing what to buy.
We have around 3000 items in our range, so there is a lot to choose from.

The easiest way to shop is via our webshop for retailers.
You can find it at: shop.wiges.se
If you prefer to email your order, in a pdf, or some other file format,
then use the address: order@wiges.se

When it's time to pay, we of course offer a digital
e-invoice in your email box if you wish to receive it.

Questions about that? In that case, our friendly customer service is open
on weekdays between 08:00-16:00. You can reach them by email: info@wiges.se
or phone: +46 320 21 05 99

Welcome with your order!

THIS APPLIES WHEN YOU SHOP WITH US:

TERMS OF SALE

All sales are conducted exclusively with registered
retailers.
Wiges reserves the right to make final decisions
regarding the acceptance or rejection of orders. We
accept no liability for typographical errors or inaccuracies in printed materials.

SHIPPING TERMS

((Amounts exclude VAT)
Orders with a net value exceeding SEK 10,000 qualify for free shipping within EU.

Orders with a net value between SEK 2,000 and SEK 10,000 are subject to a shipping fee of SEK 400.
The minimum order value is SEK 2,000.

CLAIMS AND COMPLAINTS

All claims must be submitted in writing within eight (8) calendar days from the date of receipt of goods.

Claims must be accompanied by a copy of the
corresponding invoice or, alternatively, the invoice
number.

Wiges reserves the right to inspect and assess all
claims prior to approving any credit, replacement, or
refund.

BASE LAYER

LIFE WEAR BAMBOO 2026

wig
es

LIFE WEAR® BAMBOO MAKES A DIFFERENCE

We make base layers from organically grown bamboo – a biological source cultivated without artificial irrigation and pesticides.

Bamboo's natural properties help keep garments fresh longer.

The excellent properties of bamboo create a soft feeling, the round and soft fibre makes it extra comfortable, especially for sensitive skin.

LIFE WEAR BAMBOO base layer

79251 LADIES BAMBOO BASE LAYER

68420 BAMBOO BASE LAYER
RRP: See excel file

With round and silky-smooth fibres,
our bamboo base layers provide an
exceptionally soft and comfortable feeling.
They move naturally with your body and
offer all-day comfort, whether you're
outdoors or indoors.

VARDAGSPLAGG FÖR VANLIGT FOLK.

DET ÄR VAD VI GÖR.

Ibland skojar vi och säger att Per Albin byggde folkhemmet,
Kamprad möblerade det och Wiges fyllde på i strump- och
underklädeslådorna och klädde folket.

Lite skämtsamt, men visst mått av sanning finns det i det.
Från det att vi startade som Wigelius Manufakturaffär på 1950-talet på
Magasinsgatan i Göteborg, har vi tillbringat närmare 90 år på den textila vägen.
Utmed den har vi klätt hela svenska folket med strumpor och underkläder.
Vi finns i nästan varenda strump- och underklädeslåda i vårt avlånga land.

Vi krånglar inte till det. Men vi vet vad vi sysslar med.
Vi levererar plagg som folk vill ha. Som sitter skönt, håller länge och ser bra ut.

Sedan många år är vi tryggt parkerade vår gamla textilfabrik i Kinna.
Här har vi samlat all vår kunskap, hela vår historia och alla produkter under ett tak.
